To whom it may concern

Dear Mr./Me./Honorable/CEO/MD/Board/Exec. Member,
Thank you for your valuable time in attending to this letter.

Transformation’s aim is to empower, equip, educate, and develop people. We want to train and deploy Life-Coaches in Youth Institutions across South Africa (extending to Africa). They will receive a monthly salary, based on their experience and qualifications. We are committed to social transformation and moral regeneration in communities across South Africa, extending to Africa. We will also investigate, plan and manage community upliftment initiatives – as and when the need arises and funds are secured. We are called to serve the people of SA.

Our [Youth] EMPOWERMENT and DEVELOPMENT Program is aimed at equipping our valuable young people with all important life-skills – which will enable them to make informed and quality decisions. Our YOUNG PEOPLE are confronted with many challenges and issues that continue to escalate. Families and communities are constantly challenged & traumatized by the effects of crime, violence, negative peer pressure, bullying, alcohol and drug abuse, sexual promiscuity and rape, teenage pregnancy, abortion, depression, suicide, school drop-outs, and many other-related issues. Empowering our Youth, will enable them to be accountable, and also make a positive contribution to the wellness of our society. We should be much more PRO-ACTIVE in preventing possible trauma, and/or loss, rather than waiting for a tragedy to occur, and then do damage control.

We will EMPOWER and DEVELOP young people through an **extensive five (5)-phase program**, which will include our well-researched and comprehensive **life-skills program; a mentorship program; motivational sessions; workshops/seminars** for youth and parents, **camp**s, as well as **finishing workshops**. Our programs are not presented from a religious perspective, and are thus open to all young people. We seek like-minded and hearted individuals, businesses and organizations to assist us in empowering and transforming lives on grass-roots level. We are in the process of establishing a NPO, as well as a PBO (18A).

Kind Regards and much love,

Pierre Eksteen (Bth 2005)
